

# FORWARD THINKING

WE SHORTLIST OUR FAVOURITE GARDEN DESIGN TRENDS FOR 2020, SPOTTED AT THIS YEAR'S RHS CHELSEA FLOWER SHOW

## BOLD, BRIGHT COLOUR

Jonathan Snow's Show Garden, featuring a bright-red walkway inspired by one he saw in Chile, reflects the growing trend for strong colour. Blocks of orange and purple were much in evidence, too. 'I could have played it safe, but instead decided to do something deliberately contrasting,' he says. If you don't feel brave enough to paint a whole wall or structure with a hot hue, you can add eye-catching accents with garden furniture and accessories instead. →
